Contents Vol. 128

Publisher's note 1

Neoproterozoic A-type granitoids of the central and southern Appalachians: intraplate magmatism associated with episodic rifting of the Rodinian supercontinent
R.P. Tollo, J.N. Aleinikoff, M.J. Bartholomew and D.W. Rankin 3

Age and emplacement of late Sveconorwegian monzogabbroic dykes, SW Sweden
F.A. Hellström, Å. Johansson and S.Å. Larson 39

A high-resolution, calibrated airborne radiometric dataset applied to the estimation of crustal heat production in the Archaean northern Pilbara Craton, Western Australia
S. Bodorkos, M. Sandiford, B.R.S. Minty and R.S. Blewett 57

Paleomagnetism and geochronology of the Bebedouro cap carbonate: evidence for continental-scale Cambrian remagnetization in the São Francisco craton, Brazil
R.I.F. Trindade, M.S. D'Agrella-Filho, M. Babinski, E. Font and B.B. Brito Neves 83

Young porphyries, old zircons: new constraints on the timing of deformation and gold mineralisation in the Eastern Goldfields from SHRIMP U–Pb zircon dating at the Kanowna Belle Gold Mine, Western Australia
A.A. Ross, M.E. Barley, S.J.A. Brown, N.J. McNaughton, J.R. Ridley and I.R. Fletcher 105

Contrasting copper and chromium metallogenic evolution of terranes in the Palaeoproterozoic Itabuna–Salvador–Curaçá orogen, São Francisco craton, Brazil: new zircon (SHRIMP) and Sm–Nd (model) ages and their significance for orogen-parallel escape tectonics
E.P. Oliveira, B.F. Windley, N.J. McNaughton, M. Pimentel and I.R. Fletcher 143

Paleomagnetism of the 1.88-Ga Sokoman Formation in the Schefferville–Knob Lake area, Québec, Canada, and implications for the genesis of iron oxide deposits in the central New Québec Orogen
G.E. Williams and P.W. Schmidt 167

Discussions

Comment on "Petrogenesis of an early archaean (3.4 Ga) norite dyke, Isua, West Greenland: evidence for early Archaean crustal recycling?"
S. Bernstein 189

Reply to comment by Stefan Bernstein on "Petrogenesis of an early archean (3.4 Ga) norite dyke, Isua, West Greenland: evidence for early Archean crustal recycling?"
S.G. Nielsen and J. Baker 195

Book review

Igneous and Metamorphic Petrology
P.W.O. Hoskin 197

Special Issue
Assembling the Palaeoproterozoic Capricom Orogen

Assembling and reactivating the Proterozoic Capricorn Orogen: lithotectonic elements, orogenies, and significance
P.A. Cawood and I.M. Tyler 201

doi:10.1016/S0301-9268(03)00339-5

Gravity anomalies, crustal structure and isostasy associated with the Proterozoic Capricorn Orogen, Western Australia
R. Hackney 219
Palaeoproterozoic crustal accretion and collision in the southern Capricorn Orogen: the Glenburgh Orogeny
S.A. Occhipinti, S. Sheppard, C. Passchier, I.M. Tyler and D.R. Nelson. 237
A 2005–1970 Ma Andean-type batholith in the southern Gascoyne Complex, Western Australia
S. Sheppard, S.A. Occhipinti and I.M. Tyler 257
Reconnaissance dating of events recorded in the southern part of the Capricorn Orogen
P.D. Kinny, A.P. Nutman and S.A. Occhipinti 279
High-strain zone deformation in the southern Capricorn Orogen, Western Australia: kinematics and age constraints
S.M. Reddy and S.A. Occhipinti 295
Geology and tectonic evolution of Palaeoproterozoic basins of the eastern Capricorn Orogen, Western Australia
F. Pirajno, J.A. Jones, R.M. Hocking and J. Halilovic 315
Provenance of the Earaheedy Basin: implications for assembly of the Western Australian Craton
J. Halilovic, P.A. Cawood, J.A. Jones, F. Pirajno and A.A. Nemchin. 343
Palaeomagnetism of iron-formation from the late Palaeoproterozoic Frere Formation, Earaheedy Basin, Western Australia: palaeogeographic and tectonic implications
G.E. Williams, P.W. Schmidt and D.A. Clark 367
Tectonic setting and basin evolution of the Bangemall Supergroup in the northwestern Capricorn Orogen
D.McB. Martin and A.M. Thorne. 385
Metallogeny in the Capricorn Orogen, Western Australia, the result of multiple ore-forming processes
F. Pirajno 411
Veins and hydrothermal fluid flow in the Mt. Whaleback Iron Ore District, eastern Hamersley Province, Western Australia
M.C. Brown, N.H.S. Oliver and G.R. Dickens. 441
Proterozoic evolution and tectonic setting of the northwest Paterson Orogen, Western Australia
L. Bagas 475
